Operating and Financial Review

The following is a discussion of the financial condition and results of operations for the three and six month periods ended June 30, 2013 and 2012 of Navios Maritime Partners L.P. (referred to herein as “we”, “us” or “Navios Partners”). All of the financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“US GAAP”). You should read this section together with the consolidated financial statements and the accompanying notes included in Navios Partners’ 2012 Annual Report filed on Form 20-F with the Securities and Exchange Commission.

This report contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward looking statements are based on Navios Partners’ current expectations and observations. Actual results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, changes in the demand for dry bulk vessels, fluctuation of charter rates, competitive factors in the market in which Navios Partners operates; risks associated with operations outside the United States; and other factors listed from time to time in the Navios Partners’ filings with the Securities and Exchange Commission.

Recent Developments

In June 2013, Navios Partners completed the issuance of a \$250.0 million Term Loan B facility (the “Term Loan B facility”). The Term Loan B facility bears an interest rate of LIBOR + 425 basis points and has a five-year term with 1.0% amortization profile. It is secured by first priority mortgages covering certain vessels owned by subsidiaries of Navios Partners, in addition to other collateral and guaranteed by each subsidiary of Navios Partners.

The net proceeds of the Term Loan B facility were used as follows: i) \$142.8 million to refinance existing indebtedness; ii) \$98.2 million held in escrow, partially to finance part of the acquisition of four new vessels; and iii) to cover fees and expenses.

Overview

Navios Partners is an international owner and operator of dry cargo vessels, formed on August 7, 2007 under the laws of the Republic of the Marshall Islands by Navios Maritime Holdings Inc. (“Navios Holdings”), a vertically integrated seaborne shipping and logistics company with over 55 years of operating history in the drybulk shipping industry. Navios GP L.L.C. (the “General Partner”), a wholly owned subsidiary of Navios Holdings, was also formed on that date to act as the general partner of Navios Partners and received 2% general partner interest in Navios Partners.

As of July 26, 2013, there were outstanding: 65,284,163 common units and 1,332,334 general partnership units. Navios Holdings owns a 23.4% interest in Navios Partners, which includes the 2% general partner interest.

Fleet

Our fleet consists of 14 Panamax vessels, eight Capesize vessels and three Ultra-Handymax vessels.

In general, our vessels operate under long-term time charters of three or more years at inception with counterparties that we believe are creditworthy. We may operate vessels in the spot market until the vessels have been fixed under appropriate long-term charters.

- (1) Daily charter-out rate per day, net of commissions or net insurance or settlement proceeds, where applicable.
- (2) Profit sharing 50% on the actual results above the period rates.
- (3) Expected to be delivered in the first quarter of 2014.
- (4) Profit sharing: The owners will receive 100% of the first \$1,500 in profits above the base rate and thereafter all profits will be split 50% to each party.
- (5) Profit sharing 50% above \$16,984/ day based on Baltic Exchange Panamax TC Average.
- (6) Expected to be delivered in the fourth quarter of 2013.
- (7) In January 2011, Korea Line Corporation (“KLC”) filed for receivership. The charter was affirmed and will be performed by KLC on its original terms, following an interim suspension period during which Navios Partners trades the vessel directly.
- (8) Profit sharing 50% above \$37,500/ day based on Baltic Exchange Capesize TC Average.
- (9) Profit sharing 50% above \$38,500/ day based on Baltic Exchange Capesize TC Average.
- (10) The Navios Prosperity is chartered-in for seven years until June 2014 and we have options to extend for two one-year periods. We have the option to purchase the vessel after June 2012 at a purchase price that is initially 3.8 billion Yen (\$38.3 million based upon the exchange rate at June 30, 2013) declining each year by 145 million Yen (\$1.5 million based upon the exchange rate at June 30, 2013).
- (11) The Navios Aldebaran is chartered-in for seven years until March 2015 and we have options to extend for two one-year periods. We have the option to purchase the vessel after March 2013 at a purchase price that is initially 3.6 billion Yen (\$36.3 million based upon the exchange rate at June 30, 2013) declining each year by 150 million Yen (\$1.5 million based upon the exchange rate at June 30, 2013).
- (12) Profit sharing: The owners will receive 100% of the first \$2,500 in profits above the base rate and thereafter all profits will be split 50% to each party.

Our Charters

We generate revenues by charging our customers for the use of our vessels to transport their dry bulk commodities. In general, the vessels in our fleet are chartered-out under time charters, which range in length from one to ten years at inception. From time to time, we operate vessels in the spot market until the vessels have been chartered under long-term charters.

For the six month period ended June 30, 2013, we had 16 charter counterparties, the most significant of which were Cosco Bulk Carrier Co., Ltd., Samsun Logix, Hanjin Shipping Co. LTD and Mitsui O.S.K. Lines, Ltd. and which accounted for approximately 23.3%, 12.6% 11.2% and 11.1%, respectively, of total revenues. For the fiscal year ended December 31, 2012, we had 18 charter counterparties, the most significant of which were Cosco Bulk Carrier Co., Ltd., Mitsui O.S.K. Lines, Ltd. and Samsun Logix, and which accounted for approximately 22.8%, 16.0% and 13.0%, respectively, of total revenues. We believe that the combination of the long-term nature of our charters (which provide for the receipt of a fixed fee for the life of the charter) and our management agreement with Navios ShipManagement Inc. (the “Manager”), a wholly-owned subsidiary of Navios Holdings (which provides for a fixed management fee until December 31, 2013), provides us with a strong base of stable cash flows.

[Table of Contents](#)

Our revenues are driven by the number of vessels in the fleet, the number of days during which the vessels operate and our charter hire rates, which, in turn, are affected by a number of factors, including:

- the duration of the charters;
- the level of spot and long-term market rates at the time of charter;
- decisions relating to vessel acquisitions and disposals;
- the amount of time spent positioning vessels;
- the amount of time that vessels spend undergoing repairs and upgrades in dry dock;
- the age, condition and specifications of the vessels; and
- the aggregate level of supply and demand in the dry bulk shipping industry.

Time charters are available for varying periods, ranging from a single trip (spot charter) to long-term which may be many years. In general, a long-term time charter assures the vessel owner of a consistent stream of revenue. Operating the vessel in the spot market affords the owner greater spot market opportunity, which may result in high rates when vessels are in high demand or low rates when vessel availability exceeds demand. We intend to operate our vessels in the long-term charter market. Vessel charter rates are affected by world economics, international events, weather conditions, strikes, governmental policies, supply and demand and many other factors that might be beyond our control. Please read “Risk Factors” in our 2012 Annual Report on Form 20-F for a discussion of certain risks inherent in our business.

Trends and Factors Affecting Our Future Results of Operations

We believe the principal factors that will affect our future results of operations are the economic, regulatory, political and governmental conditions that affect the shipping industry generally and that affect conditions in countries and markets in which our vessels engage in business. Please read “Risk Factors” in our 2012 Annual Report on Form 20-F for a discussion of certain risks inherent in our business.

The accompanying interim condensed consolidated financial statements of Navios Partners are unaudited, but, in the opinion of management, contain all adjustments necessary to present a fair statement of results, in all material respects, Navios Partners' condensed consolidated financial position as of June 30, 2013 and the condensed consolidated results of operations for the three and six months ended June 30, 2013 and 2012. The footnotes are condensed as permitted by the requirements for interim financial statements and, accordingly, do not include information and disclosures required under US GAAP for complete financial statements. All such adjustments are deemed to be of a normal, recurring nature. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in Navios Partners' Annual Report on Form 20-F for the year ended December 31, 2012.

Period over Period Comparisons

For the Three Month Period ended June 30, 2013 compared to the Three Month Period ended June 30, 2012

Time charter revenues: Time charter revenues for the three month period ended June 30, 2013 increased by \$0.1 million or 0.1% to \$49.2 million, as compared to \$49.1 million for the same period in 2012. The increase was mainly attributable to the acquisitions of the Navios Buena Ventura on June 15, 2012, the Navios Soleil on July 24, 2012 and the Navios Helios on July 27, 2012. As a result of the vessel acquisitions, available days of the fleet increased to 1,894 days for the three month period ended June 30, 2013, as compared to 1,630 days for the three month period ended June 30, 2012. The above increase in time charter revenues was partially mitigated by the decrease in time charter equivalent (“TCE”) to \$25,318 for the three month period ended June 30, 2013, from \$29,262 for the three month period ended June 30, 2012.

Time charter expenses: Time charter expenses for the three month period ended June 30, 2013 decreased by \$0.2 million or 6.8% to \$3.7 million, as compared to \$3.9 million for the three month period ended June 30, 2012.

Management fees: Management fees for the three month period ended June 30, 2013, increased by \$1.3 million or 17.3% to \$8.6 million, as compared to \$7.3 million for the same period in 2012. The increase was mainly attributable to the increased fleet.

General and administrative expenses: General and administrative expenses increased by \$0.1 million or 14.3% to \$1.4 million for the three month period ended June 30, 2013, as compared to \$1.3 million for the same period of 2012. The increase was mainly attributable to the increase in administrative expenses paid to the Manager due to the increased number of vessels in Navios Partners’ fleet.

Depreciation and amortization: Depreciation and amortization amounted to \$21.6 million for the three month period ended June 30, 2013 compared to \$17.3 million for the three month period ended June 30, 2012. The increase of \$4.3 million or 24.7% was attributable to: (a) an increase in depreciation expense of \$0.6 million due to the acquisitions of the Navios Buena Ventura, the Navios Soleil and the Navios Helios; (b) an increase in amortization expense of \$0.5 million due to the favorable lease terms that were recognized in relation to the acquisition of the rights on the time charter-out contract of the Navios Buena Ventura; and (c) \$3.2 million partial write-off of the Navios Melodia favorable lease. Depreciation of vessels is calculated using an estimated useful life of 25 years from the date the vessel was originally delivered from the shipyard. Intangible assets are amortized over the contract periods, which range from two to ten years.

Interest expense and finance cost, net: Interest expense and finance cost, net for the three month period ended June 30, 2013 increased by \$1.5 million or 64.7% to \$3.9 million, as compared to \$2.4 million in the same period of 2012. The increase was due to: a) write-off of deferred financing fees of \$2.0 million due to prepayments; b) the increase in the average outstanding loan balance to \$305.3 million in the three months ended June 30, 2013 from \$290.8 million in the three months ended June 30, 2012 mitigated by the lower weighted average interest rate of 2.17% for the three month period ended June 30, 2013, compared to 3.06% for the same period in 2012. As of June 30, 2013 and 2012, the outstanding loan balance under Navios Partners’ credit facilities was \$345.0 million and \$290.5 million, respectively.

Other income: Other income for the three months ended June 30, 2013 amounted to \$10.1 million compared to \$0.1 million for the three months ended June 30, 2012. . The increase was due to \$10.0 million upfront payment received covering hire revenues for the suspension period until April 2016.

Other expense: Other expense for the three months ended June 30, 2013 amounted to \$0.5 million compared to \$0.3 million for the three months ended June 30, 2012.

Net income: Net income for the three months ended June 30, 2013 amounted to \$19.5 million compared to \$16.7 million for the three months ended June 30, 2012. The increase in net income of \$2.8 million was due to the factors discussed above.

Operating surplus: Navios Partners generated operating surplus for the three month period ended June 30, 2013 of \$40.0 million, compared to \$29.5 million for the three month period ended June 30, 2012. Operating Surplus is a non-GAAP financial measure used by certain investors to assist in evaluating a partnership’s ability to make quarterly cash distributions (See “Reconciliation of EBITDA to Net Cash from Operating Activities, EBITDA, Operating Surplus and Available Cash for Distribution” contained herein).

Seasonality: As Navios Partners’ vessels operate under long-term charters, the results of operations are not generally subject to the effect of seasonal variations in demand.

For the Six Month Period ended June 30, 2013 compared to the Six Month Period ended June 30, 2012

Time charter revenues: Time charter revenues for the six month period ended June 30, 2013 increased by \$2.3 million or 2.4% to \$99.4 million, as compared to \$97.1 million for the same period in 2012. The increase was mainly attributable to the acquisitions of the Navios Buena Ventura on June 15, 2012, the Navios Soleil on July 24, 2012 and the Navios Helios on July 27, 2012. As a result of the vessel acquisitions, available days of the fleet increased to 3,784 days for the six month period ended June 30, 2013, as compared to 3,206 days for the six month period ended June 30, 2012. The above increase in time charter revenues was partially offset by the decrease in TCE to \$25,781 for the six month period ended June 30, 2013, from \$29,614 for the six month period ended June 30, 2012.

Time charter expenses: Time charter expenses for the six month period ended June 30, 2013 decreased by \$0.3 million or 5.2% to \$6.8 million, as compared to \$7.1 million for the six month period ended June 30, 2012.

Management fees: Management fees for the six month period ended June 30, 2013, increased by \$2.5 million or 17.3% to \$17.1 million, as compared to \$14.6 million for the same period in 2012. The increase was mainly attributable to the increased fleet.

General and administrative expenses: General and administrative expenses increased by \$0.5 million or 19.8% to \$3.1 million for the six month period ended June 30, 2013, as compared to \$2.6 million for the same period of 2012. The increase was mainly attributable to the increase in administrative expenses paid to the Manager due to the increased number of vessels in Navios Partners' fleet.

Depreciation and amortization: Depreciation and amortization amounted to \$40.0 million for the six month period ended June 30, 2013 compared to \$34.5 million for the six month period ended June 30, 2012. The increase of \$5.5 million or 16.1% was attributable to: (a) an increase in depreciation expense of \$1.2 million due to the acquisitions of the Navios Buena Ventura, the Navios Soleil and the Navios Helios; and (b) an increase in amortization expense of \$1.1 million due to the favorable lease terms that were recognized in relation to the acquisition of the rights on the time charter-out contract of the Navios Buena Ventura; and (c) \$3.2 million partial write-off of the Navios Melodia favorable lease. Depreciation of vessels is calculated using an estimated useful life of 25 years from the date the vessel was originally delivered from the shipyard. Intangible assets are amortized over the contract periods, which range from two to ten years.

Interest expense and finance cost, net: Interest expense and finance cost, net for the six month period ended June 30, 2013 increased by \$1.1 million or 21.9% to \$6.3 million, as compared to \$5.2 million in the same period of 2012. The increase was due to the write-off of deferred financing fees of \$2.4 million due to prepayments, partially offset by: (a) the decrease in the average outstanding loan balance to \$291.9 million in the six months ended June 30, 2013 from \$360.2 million in the six months ended June 30, 2012; and (b) the lower weighted average interest rate of 2.42% for the six month period ended June 30, 2013, compared to 3.18% for the same period in 2012. As of June 30, 2013 and 2012, the outstanding loan balance under Navios Partners' credit facilities was \$345.0 million and \$290.5 million, respectively.

Other income: Other income for the six months ended June 30, 2013 amounted to \$10.1 million compared to \$0.3 million for the six months ended June 30, 2012. The increase was due to \$10.0 million upfront payment received covering hire revenues for the suspension period until April 2016.

Other expense: Other expense for the six months ended June 30, 2013 amounted to \$0.6 million compared to \$0.1 million for the six months ended June 30, 2012.

Net income: Net income for the six months ended June 30, 2013 amounted to \$35.8 million compared to \$33.6 million for the six months ended June 30, 2012. The decrease in net income of \$2.2 million was due to the factors discussed above.

Operating surplus: Navios Partners generated operating surplus for the six month period ended June 30, 2013 of \$71.2 million, compared to \$59.1 million for the six month period ended June 30, 2012. Operating Surplus is a non-GAAP financial measure used by certain investors to assist in evaluating a partnership's ability to make quarterly cash distributions (See "Reconciliation of EBITDA to Net Cash from Operating Activities, EBITDA, Operating Surplus and Available Cash for Distribution" contained herein).

Seasonality: As Navios Partners' vessels operate under long-term charters, the results of operations are not generally subject to the effect of seasonal variations in demand.

Liquidity and Capital Resources

In addition to distributions on our units, our primary short-term liquidity needs are to fund general working capital requirements, cash reserve requirements as per our credit facilities and debt service, while our long-term liquidity needs primarily relate to expansion and investment capital expenditures and other maintenance capital expenditures and debt repayment. Expansion capital expenditures are primarily for the purchase or construction of vessels to the extent the expenditures increase the operating capacity of or revenue generated by our fleet, while maintenance capital expenditures primarily consist of drydocking expenditures and expenditures to replace vessels in order to maintain the operating capacity of or revenue generated by our fleet. Investment capital expenditures are those capital expenditures that are neither maintenance capital expenditures nor expansion capital expenditures.

We anticipate that our primary sources of funds for our short-term liquidity needs will be cash flows from operations. We believe that cash flows from operations will be sufficient to meet our existing short-term liquidity needs for at least the next 12 months. In addition, we filed a shelf registration statement on November 9, 2010 under which we may sell any combination of securities (debt or equity) for up to a total of \$500.0 million, approximately \$354.6 million of which is currently available.

Generally, our long-term sources of funds derive from cash from operations, long-term bank borrowings and other debt or equity financings. Because we distribute our available cash, we expect that we will rely upon external financing sources, including bank borrowings and the issuance of debt and equity securities, to fund acquisitions and expansion and investment capital expenditures, including opportunities we may pursue under the Omnibus Agreement. We cannot assure you that we will be able to raise the size of our credit facilities or obtain additional funds on favorable terms.

Cash deposits and cash equivalents in excess of amounts covered by government provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Partners does maintain cash deposits and equivalents in excess of government provided insurance limits. Navios Partners also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

Credit Facilities

In June 2013, Navios Partners completed the issuance of the Term Loan B facility. The Term Loan B facility bears an interest of LIBOR + 425 basis points and has a five-year term with 1% amortization profile and was issued at 98.0%. Navios Partners used the net proceeds of the Term Loan B facility to: i) prepay \$101.6 million of the credit facility with Commerzbank AG and DVB Bank AG (the "July 2012 Credit Facility"); ii) fully repay the outstanding balance of \$41.2 million of the credit facility with DVB Bank AG (the "August 2012 Credit Facility"); iii) \$98.2 million held in escrow, to partially finance part of the acquisition of four new vessels; and iv) cover fees and expenses. As of June 30, 2013, the outstanding balance of the Term Loan B facility was \$245.0 million, net of discount, and it is repayable in 20 installments of \$0.6 million with a final payment \$237.5 million.

The Term Loan B facility is secured by first priority mortgages covering certain vessels owned by subsidiaries of Navios Partners, in addition to other collateral and guaranteed by each subsidiary of Navios Partners. The Term Loan Agreement requires maintenance of a loan to value ratio of 0.8 to 1.0, and other restrictive covenants customary for facilities of this type (subject to negotiated exceptions and baskets), including restrictions on indebtedness, liens, acquisitions and investments, restricted payments and dispositions. The Term Loan Agreement also provides for customary events of default.

In June 2013, Navios Partners amended the July 2012 Credit Facility and prepaid \$101.6 million from the proceeds of the Term Loan B facility. The prepayment will be applied in partial settlement of the next 16 installments. As of June 30, 2013 the outstanding balance was \$100.0 million and is repayable in 16 installments, plus a final payment, in various amounts during the term of the July 2012 Credit Facility consisting of \$0.5 million (five quarterly installments), \$3.4 million (nine quarterly installments), \$2.3 million (one quarterly installment) and \$5.9 million (one quarterly installment) with a final payment of \$58.2 million. The July 2012 Credit Facility bears interest at rates ranging from 180 to 205 bps per annum (depending on the loan amount compared to the security value) plus, depending on the length of the interest period, either LIBOR or the actual cost of funds.

In June 2013, Navios Partners fully repaid the outstanding balance of \$41.2 million of the August 2012 Credit Facility from the proceeds of the Term Loan B facility.

As of June 30, 2013, the total borrowings under the Navios Partners' credit facilities, net of discount were \$345.0 million. As of June 30, 2013, Navios Partners was in compliance with the financial covenants of its credit facilities.

Amounts drawn under the July 2012 Credit Facility are secured by first preferred mortgages on Navios Partners' vessels and other collateral and are guaranteed by each vessel-owning subsidiary. The July 2012 Credit Facility contains a number of restrictive covenants that prohibit or limit Navios Partners from, among other things: incurring or guaranteeing indebtedness; entering into affiliate transactions; charging, pledging or encumbering the vessels; changing the flag, class, management or ownership of Navios Partners' vessels; changing the commercial and technical management of Navios Partners' vessels; selling or changing the beneficial ownership or control of Navios Partners' vessels; and subordinating the obligations under the credit facilities to any general and administrative costs relating to the vessels, including the fixed daily fee payable under the management agreement.

[Table of Contents](#)

The July 2012 Credit Facility also requires Navios Partners to comply with the ISM Code and ISPS Code and to maintain valid safety management certificates and documents of compliance at all times. The July 2012 Credit Facility also requires compliance with a number of financial covenants of Navios Partners, including Net Worth, debt coverage ratios and minimum liquidity. It is an event of default under the loan facilities if such covenants are not complied with.

Liquidity and Capital Resources

The following table presents cash flow information derived from the unaudited condensed consolidated statements of cash flows of Navios Partners for the six month periods ended June 30, 2013 and 2012.

	Six Month Period Ended June 30, 2013 (\$'000) (Unaudited)	Six Month Period Ended June 30, 2012 (\$'000) (Unaudited)
Net cash provided by operating activities	\$ 51,146	\$ 72,497
Net cash used in investing activities	(101,540)	(59,501)
Net cash provided by/(used in) financing activities	80,611	(20,013)
Increase/(decrease) in cash and cash equivalents	\$ 30,217	\$ (7,017)

Cash provided by operating activities for the six month period ended June 30, 2013 as compared to the cash provided for the six month period ended June 30, 2012:

Net cash provided by operating activities decreased by \$21.4 million to \$51.1 million for the six month period ended June 30, 2013, as compared to \$72.5 million for the same period in 2012.

Net income decreased by \$2.2 million to \$35.8 million for the six month period ended June 30, 2013, from \$33.6 million in the six month period ended June 30, 2012. In determining net cash provided by operating activities for the six month period ended June 30, 2013, net income was adjusted for the effects of certain non-cash items, including depreciation and amortization of \$40.0 million and \$2.8 million amortization and write-off of deferred financing cost. For the six month period ended June, 2012, net income was also adjusted for the effects of certain non-cash items, including depreciation and amortization of \$34.5 million, \$0.3 million amortization of deferred financing cost, \$0.03 million amortization of deferred dry dock costs.

Accounts receivable increased by \$14.7 million, from \$7.8 million at December 31, 2012, to \$22.5 million at June 30, 2013 due to the increase in amounts due from charterers. The increase in accounts receivable is mainly due to \$10.0 million recognized as part of the new suspension agreement for one of the Company's vessel.

Prepaid expenses and other current assets amounted to \$0.6 million at June 30, 2013 and December 31, 2012.

Other long term assets decreased by \$0.05 million, from \$0.3 million at December 31, 2012, to \$0.25 million at June 30, 2013.

Accounts payable increased by \$0.3 million, from \$2.1 million at December 31, 2012, to \$2.4 million at June 30, 2013. The increase was attributed to the increase in brokers' payable by \$0.2 million and increase in other payables by \$0.2 million, partially offset by the decrease in insurers' payable by \$0.1 million.

Accrued expenses increased by \$0.2 million from \$3.6 million at December 31, 2012 to \$3.8 million at June 30, 2013. The primary reasons for the increase were an increase in accrued legal and professional fees by \$0.7 million, partially offset by a decrease in accrued loan interest by \$0.4 million and a decrease in accrued voyage expenses by \$0.1 million.

Deferred voyage revenue primarily relates to cash received from charterers prior to it being earned. Deferred voyage revenue, net of commissions decreased by \$6.4 million from \$9.1 million at December 31, 2012 to \$2.7 million at June 30, 2013.

Amounts due to related parties decreased by \$6.8 million, from \$21.7 million at December 31, 2012, to \$14.9 million at June 30, 2013. The main reason was a decrease in accrued management fees of \$3.0 million and in accrued administrative fees and other payables due to affiliates companies of \$3.8 million.

Cash used in investing activities for the six month period ended June 30, 2013 as compared to the six month period ended June 30, 2012:

Net cash used in investing activities increased by \$42.0 million to \$101.5 million for the six month period ended June 30, 2013, as compared to \$59.5 million for the same period in 2012.

Cash used in investing activities of \$101.5 million for the six month period ended June 30, 2013 was due to: (i) \$98.2 million held in escrow for the acquisition of the four new vessels; and (ii) \$3.3 million paid as a deposits for the acquisition of the vessels that will be delivered to Navios Partners at various dates through the first quarter of 2014.

On June 15, 2012, Navios Partners acquired from Navios Holdings, the Navios Buena Ventura, for a purchase price of \$67.5 million. Favorable lease terms recognized through this transaction amounted to \$21.2 million and were related to the acquisition of the rights on the time charter-out contract of the vessel. The amounts of \$46.3 million for the Navios Buena Ventura were classified under vessels, net.

Cash provided by financing activities for the six month period ended June 30, 2013 as compared to cash used in financing activities for the six month period ended June 30, 2012:

Net cash provided by financing activities increased by \$100.6 million to \$80.6 million inflow for the six month period ended June 30, 2013, as compared to \$20.0 million outflow for the same period in 2012.

Cash provided by financing activities of \$100.6 million for the six month period ended June 30, 2013 was due to: (a) \$69.8 million proceeds from the issuance of 5,175,000 common units in February 2013, net of offering costs; (b) \$1.5 million from the issuance of additional general partnership units; (c) \$28.3 million decrease in restricted cash related to the amounts held in retention accounts in order to service debt payments as required by Navios Partners' credit facilities; and (d) proceeds of the Term Loan B facility, net of discount. This overall increase was partially offset by: (a) loan repayments and prepayment of long term debt, net of expenses of \$199.7 million; (b) payment of a total cash distribution of \$59.9 million; and (c) payment of \$4.8 million of deferred financing costs relating to the July 2012 Credit Facility and the Term Loan B facility.

Cash used in financing activities of \$20.0 million outflow for the six month period ended June 30, 2012 was due to: (a) \$68.6 million proceeds from the issuance of 4,600,000 common units in May 2012, net of offering costs; and (b) \$1.5 million from the issuance of additional general partnership units. This overall increase was partially offset by: (a) loan repayments of \$35.6 million; (b) payment of a total cash distribution of \$51.8 million and (c) an increase of \$2.7 million in restricted cash related to the amounts held in retention accounts in order to service debt payments as required by Navios Partners' credit facilities.

EBITDA

EBITDA represents net income plus interest and finance costs plus depreciation and amortization and income taxes.

EBITDA is presented because Navios Partners believes that EBITDA is a basis upon which liquidity can be assessed and present useful information to investors regarding Navios Partners' ability to service and/or incur indebtedness, pay capital expenditures, meet

[Table of Contents](#)

working capital requirements and pay dividends. EBITDA is a “non-GAAP financial measure” and should not be considered a substitute for net income, cash flow from operating activities and other operations or cash flow statement data prepared in accordance with accounting principles generally accepted in the United States or as a measure of profitability or liquidity.

While EBITDA is frequently used as a measure of operating results and the ability to meet debt service requirements, the definition of EBITDA used here may not be comparable to that used by other companies due to differences in methods of calculation.

EBITDA increased by \$8.6 million to \$45.0 million for the three month period ended June 30, 2013, as compared to \$36.4 million for the same period in 2012. The increase in EBITDA was due to a \$0.1 million increase in revenue following the acquisitions of the Navios Buena Ventura on June 15, 2012, the Navios Soleil on July 24, 2012, and the Navios Helios on July 27, 2012, a \$0.2 million decrease in time charter expenses a \$10.0 million increase in other income. The above increase was offset by a \$1.3 million increase in management fees due to the increased number of vessels, a \$0.1 million increase in general and administrative expenses and a \$0.2 million increase in other expenses.

EBITDA increased by \$8.9 million to \$82.1 million for the six month period ended June 30, 2013, as compared to \$73.2 million for the same period in 2012. The increase in EBITDA was due to a \$2.3 million increase in revenue following the acquisitions of the Navios Buena Ventura on June 15, 2012, the Navios Soleil on July 24, 2012, and the Navios Helios on July 27, 2012, a \$0.3 million decrease in time charter expenses and a \$9.8 million increase in other income. The above increase was offset by a \$2.5 million increase in management fees due to the increased number of vessels, a \$0.5 million increase in general and administrative expenses and a \$0.5 million increase in other expenses.

Operating Surplus

Operating Surplus represents net income adjusted for depreciation and amortization expense, non-cash interest expense and estimated maintenance and replacement capital expenditures. Maintenance and replacement capital expenditures are those capital expenditures required to maintain over the long term the operating capacity of, or the revenue generated by, Navios Partners’ capital assets.

Operating Surplus is a quantitative measure used in the publicly-traded partnership investment community to assist in evaluating a partnership’s ability to make quarterly cash distributions. Operating Surplus is not required by accounting principles generally accepted in the United States and should not be considered a substitute for net income, cash flow from operating activities and other operations or cash flow statement data prepared in accordance with accounting principles generally accepted in the United States or as a measure of profitability or liquidity.

Available Cash

Available Cash generally means, for each fiscal quarter, all cash on hand at the end of the quarter:

- less the amount of cash reserves established by the board of directors to:
 - provide for the proper conduct of Navios Partners’ business (including reserve for maintenance and replacement capital expenditures);
 - comply with applicable law, any of Navios Partners’ debt instruments, or other agreements; or
 - provide funds for distributions to the unitholders and to the general partner for any one or more of the next four quarters;
- plus all cash on hand on the date of determination of available cash for the quarter resulting from working capital borrowings made after the end of the quarter. Working capital borrowings are generally borrowings that are made under any revolving credit or similar agreement used solely for working capital purposes or to pay distributions to partners.

Available Cash is a quantitative measure used in the publicly traded partnership investment community to assist in evaluating a partnership’s ability to make quarterly cash distributions. Available Cash is not required by accounting principles generally accepted in the United States and should not be considered a substitute for net income, cash flow from operating activities and other operations or cash flow statement data prepared in accordance with accounting principles generally accepted in the United States or as a measure of profitability or liquidity.

Borrowings

Navios Partners’ long-term third party borrowings are reflected in its balance sheet as “Long-term debt, net of current portion and discount” and “Current portion of long-term debt”. As of June 30, 2013 and December 31, 2012, long-term debt amounted to \$345.0 million and \$299.7 million, respectively. The current portion of long-term debt amounted to \$2.5 million and \$23.7 million at June 30, 2013 and December 31, 2012, respectively.

[Table of Contents](#)

Capital Expenditures

Navios Partners finances its capital expenditures with cash flow from operations, owners' contribution, equity raising and bank borrowings. Capital expenditures for each of the three and six month periods ended June 30, 2013 and 2012 were \$3.4 million and \$59.5 million, respectively. The reserve for estimated maintenance and replacement capital expenditures for the three and six month periods ended June 30, 2013 was \$3.5 million and \$6.9 million, respectively. The reserve for estimated maintenance and replacement capital expenditures for the three and six month periods ended June 30, 2012 was \$4.5 million and \$8.9 million, respectively.

Maintenance for our vessels and expenses related to drydocking are included in the fee we pay our Manager under our Management Agreement. In October 2009, we fixed the rate with the Manager for a period of two years until November 2011, while the initial term of the Management Agreement was set to expire in November 2012. In October 2011, Navios Partners extended the duration of its existing Management Agreement with the Manager until December 31, 2017 and fixed the rate for shipmanagement services of its owned fleet through December 31, 2013. The new management fees are: (a) \$4,650 daily rate per Ultra-Handymax vessel; (b) \$4,550 daily rate per Panamax vessel; and (c) \$5,650 daily rate per Capesize vessel. The fee we pay to the Manager includes commercial and technical services and any costs associated with scheduled drydockings during the term of the Management Agreement.

Replacement Reserve

We estimate that our annual replacement reserve for the year ending December 31, 2013, will be approximately \$14.0 million, for replacing our vessels at the end of their useful lives.

The amount for estimated maintenance and replacement capital expenditures attributable to future vessel replacement was based on the following assumptions: (i) current market price to purchase a five year old vessel of similar size and specifications; (ii) a 25-year useful life; and (iii) a relative net investment rate.

Our Board of Directors, with the approval of the conflicts committee, may determine that one or more of our assumptions should be revised, which could cause our Board of Directors to increase or decrease the amount of estimated maintenance and replacement capital expenditures. The actual cost of replacing the vessels in our fleet will depend on a number of factors, including prevailing market conditions, charter hire rates and the availability and cost of financing at the time of replacement. We may elect to finance some or all of our maintenance and replacement capital expenditures through the issuance of additional common units which could be dilutive to existing unitholders.

Off-Balance Sheet Arrangements

Navios Partners has no off-balance sheet arrangements that have or are reasonably likely to have, a current or future material effect on its financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Contractual Obligations and Contingencies

The following table summarizes Navios Partners' long-term contractual obligations as of June 30, 2013:

	Payments due by period (Unaudited)				Total
	Less than 1 year	1-3 years	3-5 years	More than 5 years	
	(In thousands of U.S. dollars)

- (1) The amount identified does not include interest costs associated with the outstanding July 2012 Credit Facility which are based on LIBOR plus the costs of complying with any applicable regulatory requirements and a margin ranging from 1.80% to 2.05% per annum.
- (2) The amount identified does not include interest costs associated with the outstanding Term Loan B facility which are based on 4.25% per annum plus LIBOR with a floor of 1%.

[Table of Contents](#)

- (3) The amount identified excludes the discount associated with the outstanding Term Loan B facility.
- (4) These amounts reflect future minimum commitments under charter-in contracts, net of commissions. As of June 30, 2013, Navios Partners had entered into charter-in agreements for two of its vessels (the Navios Prosperity and the Navios Aldebaran). The Navios Prosperity is a chartered-in vessel until June 2014 for seven years with options to extend for two one-year periods. Navios Partners has the option to purchase the Navios Prosperity after June 2012 at a purchase price that is initially 3.8 billion Japanese Yen (\$38.3 million based on the exchange rate at June 30, 2013), declining pro rata each year by 145 million Japanese Yen (\$1.5 million based on the exchange rate at June 30, 2013). The Navios Aldebaran is a chartered-in vessel for seven years until March 2015 with options to extend for two one-year periods. Navios Partners has the option to purchase the Navios Aldebaran after March 2013 at a purchase price that is initially 3.6 billion Japanese Yen (\$36.3 million based on the exchange rate at June 30, 2013) declining pro rata each year by 150 million Japanese Yen (\$1.5 million based on the exchange rate at June 30, 2013).
- (5) Future remaining contractual installments for the Navios Partners vessels to be delivered on various dates through the first quarter of 2014.

Fleet Employment Profile

The following table reflects certain key indicators indicative of the performance of Navios Partners and its core fleet performance for the three and six month periods ended June 30, 2013 and 2012.

	Three Month Period ended June 30, 2013 (unaudited)	Three Month Period ended June 30, 2012 (unaudited)	Six Month Period ended June 30, 2013 (unaudited)	Six Month Period ended June 30, 2012 (unaudited)
Available Days (1)	1,894	1,630	3,784	3,206

Time Charter Equivalent (per day)	\$ 25,318	\$ 29,262	\$ 25,781	\$ 29,614
Vessels operating at period end	21	19	21	19

- (1) Available days for the fleet represent total calendar days the vessels were in Navios Partners' possession for the relevant period after subtracting off-hire days associated with scheduled repairs, dry dockings or special surveys. The shipping industry uses available days to measure the number of days in a relevant period during which a vessel is capable of generating revenues.
- (2) Operating days is the number of available days in the relevant period less the aggregate number of days that the vessels are off-hire due to any reason, including unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a relevant period during which vessels actually generate revenues.
- (3) Fleet utilization is the percentage of time that Navios Partners' vessels were available for revenue generating available days, and is determined by dividing the number of operating days during a relevant period by the number of available days during that period. The shipping industry uses fleet utilization to measure efficiency in finding employment for vessels and minimizing the amount of days that its vessels are off-hire for reasons other than scheduled repairs, drydockings or special surveys.
- (4) TCE rates: TCE rates are defined as voyage and time charter revenues less voyage expenses during a period divided by the number of available days during the period. The TCE rate is a standard shipping industry performance measure used primarily to present the actual daily earnings generated by vessels on various types of charter contracts for the number of available days of the fleet.

Cash Distribution Policy

Rationale for Our Cash Distribution Policy

Our cash distribution policy reflects a basic judgment that our unitholders are better served by distributing our cash available (after deducting expenses, including estimated maintenance and replacement capital expenditures and reserves) rather than retaining it. Because we believe we will generally finance any expansion capital expenditures from external financing sources or through equity raising, we believe that our investors are best served by our distributing our available cash. Our cash distribution policy is consistent with the terms of our partnership agreement, which requires that we distribute all of our available cash quarterly (after deducting expenses, including estimated maintenance and replacement capital expenditures and reserves).

Limitations on Cash Distributions and Our Ability to Change Our Cash Distribution Policy

There is no guarantee that unitholders will receive quarterly distributions from us. Our distribution policy is subject to certain restrictions and may be changed at any time.

[Table of Contents](#)

Our ability to make distributions to our unitholders depends on the performance of our subsidiaries and their ability to distribute funds to us. The ability of our subsidiaries to make distributions to us may be restricted by, among other things, the provisions of existing and future indebtedness, applicable partnership and limited liability company laws and other laws and regulations.

Minimum Quarterly Distribution

We intend to distribute to the holders of common units on a quarterly basis at least the minimum quarterly distribution of \$0.35 per unit, or \$1.40 per unit per year, to the extent we have sufficient cash on hand to pay the distribution after we establish cash reserves and pay fees and expenses. The amount of available cash from Operating Surplus needed to pay the minimum quarterly distribution for four quarters on all units outstanding and the related distribution on the 2.0% general partner interest is approximately \$93.3 million. There is no guarantee that we will pay the minimum quarterly distribution on the common units in any quarter. Even if our cash distribution policy is not modified or revoked, the amount of distributions paid under our policy and the decision to make any distribution is determined by our board of directors, taking into consideration the terms of our partnership agreement. We are prohibited from making any distributions to unitholders if it would cause an event of default, or an event of default exists, under our existing credit agreements.

On January 21, 2013, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended December 31, 2012 of \$0.4425 per unit. The distribution was paid on February 14, 2013 to all holders of record of common and general partner units on February 8, 2013, which included the unitholders from the common unit offering in February 2013. The aggregate amount of the declared distribution was \$29.9 million.

On April 22, 2013, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended March 31, 2013 of \$0.4425 per unit. The distribution was paid on May 14, 2013 to all holders of record of common and general partner units on May 10, 2013. The aggregate amount of the declared distribution was \$29.9 million.

On July 22, 2013, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended June 30, 2013 of \$0.4425 per unit. The distribution is payable on August 13, 2013 to all holders of record of common and general partner units on August 8, 2013. The aggregate amount of the declared distribution is anticipated to be \$29.9 million.

Incentive Distribution Rights

Incentive distribution rights represent the right to receive an increasing percentage of quarterly distributions of available cash from Operating Surplus after the minimum quarterly distribution and the target distribution levels have been achieved. Our general partner currently holds the incentive distribution rights, but may transfer these rights separately from its general partner interest, subject to restrictions in the partnership agreement. Except for transfers of incentive distribution rights to an affiliate or another entity as part of our general partner's merger or consolidation with or into, or sale of substantially all of its assets to such entity, the approval of a majority of our common units (excluding common units held by our general partner and its affiliates), voting separately as a class, generally is required for a transfer of the incentive distribution rights to a third party prior to December 31, 2017.

The following table illustrates the percentage allocations of the additional available cash from Operating Surplus among the unitholders and our general partner up to the various target distribution levels. The amounts set forth under "Marginal Percentage Interest in Distributions" are the percentage interests of the unitholders and our general partner in any available cash from Operating Surplus we distribute up to and including the corresponding amount in the column "Total Quarterly Distribution Target Amount," until available cash from Operating Surplus we distribute reaches the next target distribution level, if any. The percentage interests shown for the unitholders and our general partner for the minimum quarterly distribution are also applicable to quarterly distribution amounts that are less than the minimum quarterly distribution. The percentage interests shown for our general partner assume that our general partner maintains its 2.0% general partner interest and assume our general partner has not transferred the incentive distribution rights.

	Total Quarterly Distribution Target Amount	Marginal Percentage Interest in Distributions	
		Common and Subordinated Unitholders	General Partner
Minimum Quarterly Distribution	\$0.35	98%	2%
First Target Distribution	up to \$0.4025	98%	2%
Second Target Distribution	above \$0.4025 up to \$0.4375	85%	15%
Third Target Distribution	above \$0.4375 up to \$0.525	75%	25%
Thereafter	above \$0.525	50%	50%

Related Party Transactions

Management fees: Pursuant to the management agreement dated November 16, 2007, which was revised in October 2009, the Manager, a wholly owned subsidiary of Navios Holdings, provides commercial and technical management services to Navios Partners' vessels for a daily fee of: (a) \$4,500 daily rate per Ultra-Handymax vessel; (b) \$4,400 daily rate per Panamax vessel; and (c) \$5,500 daily rate per Capesize vessel for the two-year period that ended on November 16, 2011. In October 2011, Navios Partners extended the duration of its existing Management Agreement with the Manager until December 31, 2017 and fixed the rate for shipmanagement services of its owned fleet through December 31, 2013. The new management fees are: (a) \$4,650 daily rate per Ultra-Handymax vessel; (b) \$4,550 daily rate per Panamax vessel; and (c) \$5,650 daily rate per Capesize vessel.

This daily fee covers all of the vessels' operating expenses, including the cost of dry dock and special surveys. Total management fees for the three and six month period ended June 30, 2013 amounted to \$8.6 million and \$17.1 million, respectively. Total management fees for the three and six month periods ended June 30, 2012 amounted to \$7.3 million and \$14.6 million, respectively.

General and administrative expenses: Pursuant to the administrative services agreement dated November 16, 2007, the Manager also provides administrative services to Navios Partners, which include bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other. The Manager is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Navios Partners extended the duration of its existing Administrative Services Agreement with the Manager pursuant to the same terms, until December 31, 2017.

Total general and administrative expenses charged by Navios Holdings for the three and six month periods ended June 30, 2013 amounted to \$1.1 million and \$2.1 million, respectively. Total general and administrative expenses charged by Navios Holdings for the three and six month periods ended June 30, 2012 amounted to \$0.9 million and \$1.8 million, respectively.

Balance due to related parties: Included in the current liabilities as of June 30, 2013 was an amount of \$14.9 million, which represented the current account payable to Navios Holdings and its subsidiaries. The balance mainly consisted of the management fees outstanding amounting to \$14.2 million, and administrative service fees and other payables amounting to \$0.7 million. Amounts due to related parties as of December 31, 2012 was \$21.7 million.

Vessel Chartering: In February 2012, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Apollon. The term of this charter is approximately two years commencing in February 2012, at a daily rate of \$12,500 net per day for the first year and \$13,500 net per day for the second year, plus 50/50 profit sharing based on actual earnings. For this charter, for three and six months ended June 30, 2013 the total revenue of Navios Partners from Navios Holdings amounted to \$1.2 million and \$2.2 million, respectively. For three and six months ended June 30, 2012 the total revenue of Navios Partners from Navios Holdings amounted to \$1.2 million and \$1.7 million, respectively.

In May 2012, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Prosperity. The term of this charter is approximately one year with two six-month extension options granted to Navios Holdings, commencing in May 2012, at a daily rate of \$12,000 net per day plus profit sharing the first \$1,500 in profits above the base rate and thereafter all profits will be split 50% to each party. For this charter, for the three and six months ended June 30, 2013, the total revenue of Navios Partners from Navios Holdings amounted to \$1.1 million and \$2.2 million, respectively. For this charter, for the three and six months ended June 30, 2012, the total revenue of Navios Partners from Navios Holdings amounted to \$0.3 million.

In September 2012, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Libra. The term of this charter is approximately three years commencing in October 2012, at a daily rate of \$12,000 net per day plus 50/50 profit sharing based on actual earnings. For this charter, for the three and six months ended June 30, 2013 the total revenue of Navios Partners from Navios Holdings amounted to \$1.1 million and \$2.2 million, respectively.

In May 2013, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Felicity. The term of this charter is approximately one year commencing in May 2013, at a daily rate of \$12,000 net per day plus 50/50 profit sharing based on actual earnings. For this charter, for the three and six months ended June 30, 2013 the total revenue of Navios Partners from Navios Holdings amounted to \$0.6 million.

In May 2013, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Aldebaran. The term of this charter is approximately six months commencing in June 2013, at a daily rate of \$11,000 net per day plus profit sharing the first \$2,500 in profits above the base rate and thereafter all profits will be split 50% to each party. For this charter, for the three and six months ended June 30, 2013 the total revenue of Navios Partners from Navios Holdings amounted to \$0.3 million.

Others: Navios Partners has entered into an Omnibus Agreement with Navios Holdings pursuant to which Navios Holdings and its controlled affiliates (other than us, our general partner and our subsidiaries) generally agreed not to acquire or own Panamax or Capesize drybulk carriers under time charters of three or more years without the consent of our general partner. The Omnibus Agreement, however, contains significant exceptions that allow Navios Holdings or any of its controlled affiliates to compete with us under specified circumstances which could harm our business. In addition, concurrently with the successful consummation of the initial business combination by Navios Maritime Acquisition Corporation, or Navios Acquisition, on May 28, 2010, because of the overlap between Navios Acquisition, Navios Holdings and us, with respect to possible acquisitions under the terms of our Omnibus Agreement, we entered into a business opportunity right of first refusal agreement which provides the types of business opportunities in the marine transportation and logistics industries, we, Navios Holdings and Navios Acquisition must share with the each other.

[Table of Contents](#)

On January 1, 2012, in accordance with the terms of the partnership agreement, all of the then outstanding subordinated units converted into 7,621,843 shares of common units. On June 29, 2012, in accordance with the terms of the partnership agreement, the outstanding subordinated Series A units converted into 1,000,000 shares of common units. As of June 30, 2013 and December 31, 2012, Navios Holdings held a total of 14,223,763 common units, representing a 21.4% and 23.2%, respectively, common unit interest in Navios Partners.

On November 15, 2012, Navios Holdings and Navios Partners entered into an agreement by which Navios Holdings will provide supplemental credit default insurance with a maximum cash payment of \$20.0 million. As of June 30, 2013, the Company has not put forth any claims to Navios Holdings in connection with this supplemental insurance.

Quantitative and Qualitative Disclosures about Market Risks

Foreign Exchange Risk

Our functional and reporting currency is the U.S. dollar. We engage in worldwide commerce with a variety of entities. Although our operations may expose us to certain levels of foreign currency risk, our transactions are predominantly U.S. dollar denominated. Transactions in currencies other than U.S. dollars are translated at the exchange rate in effect at the date of each transaction. Differences in exchange rates during the period between the date a transaction denominated in a foreign currency is consummated and the date on which it is either settled or translated, are recognized.

Interest Rate Risk

Borrowings under our credit facilities bear interest at rate based on a premium over U.S.\$ LIBOR. Therefore, we are exposed to the risk that our interest expense may increase if interest rates rise. For the six month period ended June 30, 2013, we paid interest on our outstanding debt at a weighted average interest rate of 2.42%. A 1% increase in LIBOR would have increased our interest expense for the six month period ended June 30, 2013 by \$1.4 million. For the six month period ended June 30, 2012, we paid interest on our outstanding debt at a weighted average interest rate of 3.18%. A 1% increase in LIBOR would have increased our interest expense for the six month period ended June 30, 2012 by \$1.6 million.

Concentration of Credit Risk

Financial instruments, which potentially subject us to significant concentrations of credit risk, consist principally of trade accounts receivable. We closely monitor our exposure to customers for credit risk. We have policies in place to ensure that we trade with customers with an appropriate credit history. For the six month period ended June 30, 2013, we had 16 charter counterparties, the most significant of which were Cosco Bulk Carrier Co., Samsun Logix, Hanjin Shipping Co. LTD Ltd and Mitsui O.S.K. Lines Ltd, which accounted for approximately 23.3%, 12.6%, 11.2% and 11.1%, respectively, of total revenues. For the fiscal year ended December 31, 2012, we had 18 charter counterparties, the most significant of which were Cosco Bulk Carrier Co., Ltd., Mitsui O.S.K. Lines, Ltd. and Samsun Logix, and which accounted for approximately 22.8%, 16.0% and 13.0%, respectively, of total revenues. Although we do not obtain rights to collateral, we maintain counterparty insurance which we re-assess on a quarterly basis to help reduce our credit risk.

To mitigate this risk we have insured certain of our long-term charter-out contracts until 2016, either through a "AA" rated European Union insurance provider up to a maximum cash payment of \$120.0 million or through a separate agreement with Navios Holdings up to a maximum cash payment of \$20.0 million. Our agreements provide that if the charterer goes into payment default, the respective insurer will reimburse us for the charter payments under the terms of the cover (subject to applicable deductibles and other customary limitations for such type of insurance).

Inflation

Inflation has had a minimal impact on vessel operating expenses, dry docking expenses and general and administrative expenses. Our management does not consider inflation to be a significant risk to direct expenses in the current and foreseeable economic environment.

Recent Accounting Pronouncements

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

In February 2013, the Financial Accounting Standards Board (“FASB”) issued amended standards requiring additional disclosures for other comprehensive income. The amended standards require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. The amendments apply to all entities that issue financial statements that are presented in conformity with U.S. GAAP and that report items of other comprehensive income. Public companies are required to comply with these amendments for all reporting periods presented, including interim periods. For public entities, the amendments are effective prospectively for reporting periods beginning after December 15, 2012. Navios Partners has adopted the new amendments as of January 1, 2013. The adoption of the new standard did not have a significant impact on Navios Partners’ consolidated financial statements.

Critical Accounting Policies

Our financial statements have been prepared in accordance with US GAAP. The preparation of these financial statements requires us to make estimates in the application of our accounting policies based on the best assumptions, judgments and opinions of management. Following is a discussion of the accounting policies that involve a higher degree of judgment and the methods of their application that affect the reported amount of assets and liabilities, revenues and expenses and related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are those that reflect significant judgments or uncertainties, and potentially result in materially different results under different assumptions and conditions. Other than as described below, all significant accounting policies are as described in Note 2 to the Notes to the consolidated financial statements included in the Company’s Annual Report on Form 20-F for the year ended December 31, 2012 filed with the Securities and Exchange Commission on March 15, 2013.

Vessels, net: Vessels are stated at historical cost, which consists of the contract price and any material expenses incurred upon acquisition (improvements and delivery expenses). Vessels acquired in an asset acquisition or in a business combination are recorded at fair value. Subsequent expenditures for major improvements and upgrading are capitalized, provided they appreciably extend the life, increase the earning capacity or improve the efficiency or safety of the vessels. Expenditures for routine maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight line method over the useful life of the vessels, after considering the estimated residual value. Management estimates the residual values of our dry bulk vessels based on a scrap value cost of steel times the weight of the ship noted in lightweight ton (LWT). Residual values are periodically reviewed and revised to recognize changes in conditions, new regulations or other reasons. Revisions of residual values affect the depreciable amount of the vessels and affects depreciation expense in the period of the revision and future periods. Prior to December 31, 2012, management estimated the residual values of its vessels based on a scarp rate of \$285 per LWT. Effective January 1, 2013, following management’s reassessment after considering current market trends for scrap rates and ten-year average historical scrap rates of the residual values of the Company’s vessels, the estimated scrap value per LWT was increased to \$340. This change in accounting estimate of scrap value did not materially affect the statement of income and the EPS of the Company in the three and six month periods ended June 30, 2013.

Management estimates the useful life of our vessels to be 25 years from the vessel’s original construction. However, when regulations place limitations over the ability of a vessel to trade on a worldwide basis, its useful life is re-estimated to end at the date such regulations become effective.

NOTE 1 — DESCRIPTION OF BUSINESS

Navios Partners is an international owner and operator of dry cargo vessels, formed on August 7, 2007 under the laws of the Republic of the Marshall Islands by Navios Holdings, a vertically integrated seaborne shipping and logistics company with over 55 years of operating history in the drybulk shipping industry. Navios GP L.L.C. (the “General Partner”), a wholly owned subsidiary of Navios Holdings, was also formed on that date to act as the general partner of Navios Partners and received a 2% general partner interest in Navios Partners.

Navios Partners is engaged in the seaborne transportation services of a wide range of drybulk commodities including iron ore, coal, grain and fertilizer, chartering its vessels under medium to long-term charters. The operations of Navios Partners are managed by Navios ShipManagement Inc., a subsidiary of Navios Holdings (the “Manager”) from its offices in Piraeus, Greece and Monaco.

Pursuant to the initial public offering (“IPO”) on November 16, 2007, Navios Partners entered into the following agreements:

- (a) a management agreement with the Manager pursuant to which the Manager provides Navios Partners commercial and technical management services;
- (b) an administrative services agreement with the Manager pursuant to which the Manager provides Navios Partners administrative services; and
- (c) an omnibus agreement with Navios Holdings (“Omnibus Agreement”), governing, among other things, when Navios Partners and Navios Holdings may compete against each other as well as rights of first offer on certain drybulk carriers.

As of June 30, 2013, there were outstanding: 65,284,163 common units and 1,332,334 general partnership units. Navios Holdings owns a 23.4% interest in Navios Partners, which includes a 2% general partner interest.

UNAUDITED CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in thousands of U.S. dollars except unit prices and amounts)

(a) Use of Estimates: The preparation of consolidated financial statements in conformity with the accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. On an on-going basis, management evaluates the estimates and judgments, including those related to future drydock dates, the selection of useful lives for tangible assets, expected future cash flows from long-lived assets to support impairment tests, provisions necessary for accounts receivables, provisions for legal disputes, and contingencies. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates under different assumptions and/or conditions.

(b) Vessels, net: Vessels are stated at historical cost, which consists of the contract price and any material expenses incurred upon acquisition (improvements and delivery expenses). Vessels acquired in an asset acquisition or in a business combination are recorded at fair value. Subsequent expenditures for major improvements and upgrading are capitalized, provided they appreciably extend the life, increase the earning capacity or improve the efficiency or safety of the vessels. Expenditures for routine maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight line method over the useful life of the vessels, after considering the estimated residual value. Management estimates the residual values of our dry bulk vessels based on a scrap value cost of steel times the weight of the ship noted in lightweight ton (LWT). Residual values are periodically reviewed and revised to recognize changes in conditions, new regulations or other reasons. Revisions of residual values affect the depreciable amount of the vessels and affects depreciation expense in the period of the revision and future periods. Prior to December 31, 2012, management estimated the residual values of its vessels based on a scrap rate of \$285 per LWT. Effective January 1, 2013, following management's reassessment after considering current market trends for scrap rates and ten-year average historical scrap rates of the residual values of the Company's vessels, the estimated scrap value per LWT was increased to \$340. This change in accounting estimate of scrap value did not materially affect the statement of income and the earnings per unit of the Company in the three and six month period ended June 30, 2013.

Management estimates the useful life of our vessels to be 25 years from the vessel's original construction. However, when regulations place limitations over the ability of a vessel to trade on a worldwide basis, its useful life is re-estimated to end at the date such regulations become effective.

The accompanying interim condensed consolidated financial statements of Navios Partners are unaudited, but, in the opinion of management, contain all adjustments necessary to present a fair statement of results, in all material respects, Navios Partners' condensed consolidated financial position as of June 30, 2013 and December 31, 2012 and the condensed consolidated results of operations for the three and six months ended June 30, 2013 and 2012. The footnotes are condensed as permitted by the requirements for interim financial statements and, accordingly, do not include information and disclosures required under US GAAP for complete financial statements. All such adjustments are deemed to be of a normal, recurring nature. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in Navios Partners' Annual Report on Form 20-F for the year ended December 31, 2012.

NOTE 3 — CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of the following:

	<u>June 30,</u> <u>2013</u>	<u>December 31,</u> <u>2012</u>
Cash on hand and at banks	\$14,261	\$ 18,180
Short term deposits and highly liquid funds	48,088	13,952
Total cash and cash equivalents	\$62,349	\$ 32,132

Short term deposits and highly liquid funds relate to amounts held in banks for general financing purposes. As of June 30, 2013, Navios Partners held time deposits of \$47,290 and money market funds of \$798 with duration of less than three months. As of December 31, 2012, Navios Partners held time deposits of \$13,129 and money market funds of \$823 with duration of less than three months.

(Expressed in thousands of U.S. dollars except unit prices and amounts)

Cash deposits and cash equivalents in excess of amounts covered by government-provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Partners does maintain cash deposits and equivalents in excess of government-provided insurance limits. Navios Partners also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

Restricted cash as of June 30, 2013 and December 31, 2012 included an amount held as security in the form of a letter of guarantee related to an owned vessel in the amount of \$830 and \$829, respectively. In addition, at each of June 30, 2013 and December 31, 2012, restricted cash included \$0 and \$28,700, respectively, which related to amounts held in retention accounts as required by certain of Navios Partners' credit facilities. As of June 30, 2013 and December 31, 2012 the short-term restricted cash held in retention accounts was \$830 and \$29,529, respectively. Long-term restricted cash as of June 30, 2013 was \$98,179 (see note 7).

Deposits for vessel acquisition represent deposits for vessels to be delivered in the future. As of June 30, 2013, Navios Partners vessel deposits amounted to \$3,361.

NOTE 5 — INTANGIBLE ASSETS

Intangible assets and unfavorable leases terms as of June 30, 2013 and December 31, 2012 consisted of the following:

	Cost	Accumulated Amortization	Net Book Value
Total favorable lease terms charter-out December 31, 2011	\$227,335	\$ (50,754)	\$176,581
Additions	21,193	(37,295)	(16,102)

NAVIOS MARITIME PARTNERS L.P.
UNAUDITED CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in thousands of U.S. dollars except unit prices and amounts)

The aggregate amortization of the intangibles for the 12-month periods ended June 30 is estimated to be as follows:

<u>Year</u>	<u>Amount</u>
2014	\$ 33,706
2015	22,758
2016	18,262
2017	17,526
2018 and thereafter	45,796
	<u>\$138,048</u>

In relation to Navios Partners' new suspension agreement, entered into in June 2013, the amount of \$3,205 of Navios Melodia favorable lease term that corresponded to the suspension period until April 2016 was written-off in the statement of income under the caption of Depreciation and amortization.

Intangible assets subject to amortization are amortized using straight line method over their estimated useful lives to their estimated residual value of zero. The weighted average useful lives are 7.7 years for favorable lease terms charter out.

NOTE 6 — DEFERRED VOYAGE REVENUE

Deferred voyage revenue primarily reflects charter-out amounts collected on voyages that have not yet been completed. In January 2009, Navios Partners and its counterparty to the Navios Hope charter party mutually agreed for a lump sum amount of approximately \$30,443, of which Navios Partners received net of expenses in the amount of \$29,589 in February 2009. Under a new charter agreement, the balance of the aggregate value of the original contract is allocated to the period until its original expiration. The amount of \$30,443 has been recognized as deferred revenue and is being amortized over the entire term of the vessel's contract through August 2013.

As of June 30, 2013 and December 31, 2012, the deferred voyage revenue of \$2,724 and \$9,112, respectively, included the unamortized amount of the lump sum amount related to the Navios Hope of \$896 and \$4,230, respectively. As of June 30, 2013, the current and long-term portion of the lump sum amount for the Navios Hope was \$896 and \$0, respectively.

NOTE 7 — BORROWINGS

Borrowings as of June 30, 2013 and December 31, 2012 consisted of the following:

	<u>June 30, 2013</u>	<u>December 31, 2012</u>
Term Loan B facility	\$250,000	\$ —
Credit facilities	100,020	299,709
Total borrowings	350,020	299,709
Less: Unamortized discount	(4,989)	—
Less: current portion, net of unamortized discount	(2,472)	(23,727)
Total long-term borrowings, net of unamortized discount	<u>\$342,559</u>	<u>\$ 275,982</u>

In June 2013, Navios Partners completed the issuance of the Term Loan B facility. The Term Loan B facility bears an interest rate of LIBOR + 425 basis points and has a five-year term with 1.0% amortization profile and was issued at 98.0%. Navios Partners used the net proceeds of the Term Loan B facility to: i) prepay \$101,614 of the July 2012 Credit Facility; ii) fully repay the outstanding balance \$41,225 of the August 2012 Credit Facility; iii) \$98,179 held in escrow, to partially finance part of the acquisition of four new vessels; and iv) cover fees and expenses. As of June 30, 2013, the outstanding balance was \$245,000, net of discount and it is repayable in 20 installments of \$625 with a final payment \$237,500.

The Term Loan B facility is secured by first priority mortgages covering certain vessels owned by subsidiaries of Navios Partners, in addition to other collateral and guaranteed by each subsidiary of Navios Partners. The Term Loan Agreement requires maintenance of a loan to value ratio of 0.8 to 1.0, and other restrictive covenants customary for facilities of this type (subject to negotiated exceptions and baskets), including restrictions on indebtedness, liens, acquisitions and investments, restricted payments and dispositions. The Term Loan Agreement also provides for customary events of default.

NAVIOS MARITIME PARTNERS L.P.
UNAUDITED CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in thousands of U.S. dollars except unit prices and amounts)

In June 2013, Navios Partners amended the July 2012 Credit Facility and prepaid \$101,614 from the proceeds of the Term Loan B facility. The prepayment will be applied in partial settlement of the next 16 installments. As of June 30, 2013, the outstanding balance was \$100,020 and is repayable in 16 installments, plus a final payment, in various amounts during the term of the July 2012 Credit Facility consisting of \$496 (five quarterly installments), \$3,456 (nine quarterly installments), \$2,346 (one quarterly installment) and \$5,867 (one quarterly installment) with a final payment of \$58,223. The July 2012 Credit Facility bears interest at rates ranging from 180 to 205 bps per annum (depending on the loan amount compared to the security value) plus, depending on the length of the interest period, either LIBOR or the actual cost of funds. The refinancing of this facility was accounted for as debt modification in accordance with ASC470 Debt and an amount of \$1,319 was written-off from the deferred financing fees.

In June 2013, Navios Partners fully repaid the outstanding balance of \$41,225 of the August 2012 Credit facility from the proceeds of the Term Loan B facility. The refinancing of this facility was accounted for as debt extinguishment in accordance with ASC470 Debt and the remaining unamortized balance of \$707 was written-off from the deferred financing fees.

As of June 30, 2013, the total borrowings under the Navios Partners' credit facilities were \$345,031. As of June 30, 2013, Navios Partners was in compliance with the financial covenants of its credit facilities.

Amounts drawn under the July 2012 Credit Facility are secured by first preferred mortgages on Navios Partners' vessels and other collateral and are guaranteed by each vessel-owning subsidiary. The July 2012 Credit Facility contains a number of restrictive covenants that prohibit or limit Navios Partners from, among other things: incurring or guaranteeing indebtedness; entering into affiliate transactions; charging, pledging or encumbering the vessels; changing the flag, class, management or ownership of Navios Partners' vessels; changing the commercial and technical management of Navios Partners' vessels; selling or changing the beneficial ownership or control of Navios Partners' vessels; and subordinating the obligations under the credit facilities to any general and administrative costs relating to the vessels, including the fixed daily fee payable under the management agreement. The July 2012 Credit Facility also requires Navios Partners to comply with the ISM Code and ISPS Code and to maintain valid safety management certificates and documents of compliance at all times. The July 2012 Credit Facility also requires compliance with a number of financial covenants of Navios Partners, including Net Worth, debt coverage ratios and minimum liquidity. It is an event of default under the loan facilities if such covenants are not complied with.

The maturity table below reflects the principal payments due under its credit facilities for the 12-month periods ended June 30:

<u>Year</u>	<u>Amount</u>
2014	\$ 3,492
2015	6,334
2016	16,324
2017	18,735
2018	305,135
	<u>\$350,020</u>

NOTE 8 — FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value amounts of many of Navios Partners' financial instruments, including cash and cash equivalents, restricted cash, accounts receivable and accounts payable and amounts due to related parties approximate their fair value due primarily to the short-term maturity of the related instruments.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for interest bearing deposits approximate their fair value because of the short maturity of these investments.

Borrowings: The carrying amount of the floating rate loans approximates its fair value.

The estimated fair values of the Navios Partners' financial instruments are as follows:

	<u>June 30, 2013</u>		<u>December 31, 2012</u>	
	<u>Book Value</u>	<u>Fair Value</u>	<u>Book Value</u>	<u>Fair Value</u>

Fair Value Measurements

The estimated fair value of our financial instruments that are not measured at fair value on a recurring basis, categorized based upon the fair value hierarchy, are as follows:

Level I: Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets that we have the ability to access. Valuation of these items does not entail a significant amount of judgment.

Level II: Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.

Level III: Inputs that are unobservable. The Company did not use any Level 3 inputs as of June 30, 2013.

	Fair Value Measurements at June 30, 2013 Using			
	Total	Level I	Level II	Level III
Cash and cash equivalents	\$ 62,349	\$62,349	\$ —	\$ —
Restricted cash	\$ 99,009	\$99,009	\$ —	\$ —
Long-term debt ⁽¹⁾	\$(345,031)	\$ —	\$(345,031)	\$ —

- (1) The fair value of the Company's debt is estimated based currently available debt with similar contract terms, interest rate and remaining maturities as well as taking into account our creditworthiness.

NOTE 9 — ISSUANCE OF UNITS

On February 6, 2013, Navios Partners completed its public offering of 4,500,000 common units at \$14.15 per unit and raised gross proceeds of approximately \$63,675 to fund its fleet expansion. The net proceeds of this offering, including the underwriting discount and excluding offering costs of \$195 were approximately \$60,645. Pursuant to this offering, Navios Partners issued 91,837 general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$1,299. On the same date, Navios Partners completed the exercise of the option previously granted to the underwriters in connection with the offering and issued 675,000 additional common units at the public offering price less the underwriting discount. As a result of the exercise of the option, Navios Partners raised additional gross proceeds of \$9,551. The net proceeds, including the underwriting discount, were approximately \$9,126 and issued 13,776 additional general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$195.

NOTE 10 — SEGMENT INFORMATION

Navios Partners reports financial information and evaluates its operations by charter revenues. Navios Partners does not use discrete financial information to evaluate operating results for each type of charter. As a result, management reviews operating results solely by revenue per day and operating results of the fleet and thus Navios Partners has determined that it operates under one reportable segment.

The following table sets out operating revenue by geographic region for Navios Partners' reportable segment. Revenue is allocated on the basis of the geographic region in which the customer is located. Dry bulk vessels operate worldwide. Revenues from specific geographic region which contribute over 10% of total revenue are disclosed separately.

Revenue by Geographic Region

Vessels operate on a worldwide basis and are not restricted to specific locations. Accordingly, it is not possible to allocate the assets of these operations to specific countries.

NOTE 11 — INCOME TAXES

Marshall Islands, Malta and Liberia do not impose a tax on international shipping income. Under the laws of Marshall Islands, Malta and Liberia, the countries of the vessel-owning subsidiaries' incorporation and vessels' registration, the vessel-owning subsidiaries are subject to registration and tonnage taxes which have been included in vessel operating expenses in the accompanying consolidated statements of income.

As of January 1, 2013, foreign flagged vessels that are managed by Greek or foreign ship management companies in Greece are subject to Greek tonnage tax. The payment of tonnage tax exhausts the tax liability of the foreign ship owning company against any tax, duty, charge or contribution payable on income from the exploitation of the foreign flagged vessel.

Pursuant to Section 883 of the Internal Revenue Code of the United States, U.S. source income from the international operation of ships is generally exempt from U.S. income tax if the company operating the ships meets certain incorporation and ownership requirements. Among other things, in order to qualify for this exemption, the company operating the ships must be incorporated in a country which grants an equivalent exemption from income taxes to U.S. corporations. All the vessel-owning subsidiaries satisfy these initial criteria. In addition, these companies must meet an ownership test. The management of Navios Partners believes that this ownership test was satisfied prior to the IPO by virtue of a special rule applicable to situations where the ship operating companies are beneficially owned by a publicly traded company. Although not free from doubt, management also believes that the ownership test will be satisfied based on the trading volume and ownership of Navios Partners' units, but no assurance can be given that this will remain so in the future.

NOTE 12 — COMMITMENTS AND CONTINGENCIES

Navios Partners is involved in various disputes and arbitration proceedings arising in the ordinary course of business. Provisions have been recognized in the financial statements for all such proceedings where Navios Partners believes that a liability may be probable, and for which the amounts are reasonably estimable, based upon facts known at the date the financial statements were prepared. Management believes, the ultimate disposition of these matters will be immaterial to Navios Partners' financial position, results of operations or liquidity.

In January 2011, Korea Line Corporation ("KLC") which is the charterer of the Navios Melodia filed for receivership. The charter contract was affirmed and will be performed by KLC on its original terms, following an interim suspension period during which Navios Partners trades the vessel directly.

As of June 30, 2013, Navios Partners committed for future remaining contractual deposits for the vessels to be delivered on various dates through the first quarter of 2014. The future minimum commitments for the 12-month periods ended June 30, of Navios Partners under its charter-in contracts, net of commissions, are as follows:

	<u>Amount</u>
2014	\$113,743
2015	3,471
Total	\$117,214

Others: Navios Partners has entered into an Omnibus Agreement with Navios Holdings pursuant to which Navios Holdings and its controlled affiliates (other than us, our general partner and our subsidiaries) generally agreed not to acquire or own Panamax or Capesize drybulk carriers under time charters of three or more years without the consent of our general partner. The Omnibus Agreement, however, contains significant exceptions that allow Navios Holdings or any of its controlled affiliates to compete with us under specified circumstances which could harm our business. In addition, concurrently with the successful consummation of the initial business combination by Navios Maritime Acquisition Corporation, or Navios Acquisition, on May 28, 2010, because of the overlap between Navios Acquisition, Navios Holdings and us, with respect to possible acquisitions under the terms of our Omnibus Agreement, we entered into a business opportunity right of first refusal agreement which provides the types of business opportunities in the marine transportation and logistics industries, we, Navios Holdings and Navios Acquisition must share with the each other.

On January 1, 2012, in accordance with the terms of the partnership agreement, all of the outstanding subordinated units converted into 7,621,843 shares of common units. On June 29, 2012, in accordance with the terms of the partnership agreement, the outstanding subordinated Series A units converted into 1,000,000 shares of common units. As of June 30, 2013, Navios Holdings held a total of 14,223,763 common units, representing a 23.2% common unit interest in Navios Partners.

On November 15, 2012, Navios Holdings and Navios Partners entered into an agreement by which Navios Holdings will provide supplemental credit default insurance with a maximum cash payment of \$20,000. As of June 30, 2013, the Company has not put forth any claims to Navios Holdings in connection with this supplemental insurance.

NOTE 14 — CASH DISTRIBUTIONS AND EARNINGS PER UNIT

The partnership agreement of Navios Partners requires that all available cash is distributed quarterly, after deducting expenses, including estimated maintenance and replacement capital expenditures and reserves. Distributions may be restricted by, among other things, the provisions of existing and future indebtedness, applicable partnership and limited liability company laws and other laws and regulations. The amount of the minimum quarterly distribution is \$0.35 per unit or \$1.40 per unit per year and is made in the following manner:

- First, 98% to all unitholders, pro rata not including holder of subordinated Series A units;

Thereafter there is incentive distribution rights held by the General Partner, which are analyzed as follows:

	Total Quarterly Distribution Target Amount	Marginal Percentage Interest in Distributions	
		Common and Subordinated Unitholders	General Partner
Minimum Quarterly Distribution	\$ 0.35	98%	2%
First Target Distribution	up to \$0.4025	98%	2%
Second Target Distribution	above \$0.4025 up to \$0.4375	85%	15%
Third Target Distribution	above \$0.4375 up to \$0.525	75%	25%
Thereafter	above \$0.525	50%	50%

On January 21, 2013, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended December 31, 2012 of \$0.4425 per unit. The distribution was paid on February 14, 2013 to all holders of record of common and general partner units on February 8, 2013, which included the unitholders from the common unit offering in February 2013. The aggregate amount of the declared distribution was \$27,563 and \$2,373 for new unitholders.

On April 22, 2013, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended March 31, 2013 of \$0.4425 per unit. The distribution was paid on May 14, 2013 to all holders of record of common and general partner units on May 10, 2013. The aggregate amount of the declared distribution was \$29,936.

Navios Partners calculates earnings per unit by allocating reported net income for each period to each class of units based on the distribution waterfall for available cash specified in Navios Partners' partnership agreement, net of the unallocated earnings (or losses). Basic earnings net income per unit is determined by dividing net income by the weighted average number of units outstanding during the period. Diluted earnings per unit is calculated in the same manner as net income per unit, except that the weighted average number of outstanding units increased to include the dilutive effect of outstanding unit options or phantom units. There were no options or phantom units outstanding during the three and six months ended June 30, 2013 and 2012.

NOTE 15 — OTHER INCOME

As part of a new suspension agreement entered into in June 2013, Navios Partners agreed to receive upfront payment of \$10,000 covering hire revenues for the suspension period until April 2016. The amount of \$10,000 was recognized immediately in the statement of income under the caption of Other income since the Company has no future requirements to refund the payment.

NOTE 16 — RECENT ACCOUNTING PRONOUNCEMENTS

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

In February 2013, the Financial Accounting Standards Board (“FASB”) issued amended standards requiring additional disclosures for other comprehensive income. The amended standards require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. The amendments apply to all entities that issue financial statements that are presented in conformity with U.S. GAAP and that report items of other comprehensive income. Public companies are required to comply with these amendments for all reporting periods presented, including interim periods. For public entities, the amendments are effective prospectively for reporting periods beginning after December 15, 2012. Navios Partners has adopted the new amendments as of January 1, 2013. The adoption of the new standard did not have a significant impact on Navios Partners’ consolidated financial statements.

NOTE 17 — SUBSEQUENT EVENTS
